

THE BROOKLYN REAL ESTATE SUMMIT 2011

The 2nd Annual Conference For Influential Real Estate Players In NYC's Largest Borough
June 16, 2011 • Saint Francis College

It's easy to see who is financing the big deals in Midtown Manhattan; just read GlobeSt, New York Times, or Wall Street Journal, but **who is active specifically in Brooklyn?** Who has done deals here in the last 12 months and can credibly address where the local market is and where it is headed? On June 16, we bring together capital sources of debt and equity financing to discuss their deals and insight into the Brooklyn market dynamics.

Whether it's multifamily, condo developments, mixed use, retail, hotel, office, or industrial, this panel addresses most aspects from **bank financing through bridge financing, preferred equity and alternative capital sources.** They will answer questions and explore the issues around availability, terms, successes and failures, and where things will most likely be in 12 months.
